# The church providing generational transformation with **Economic development tools**

## Goat farms

### Signs of generational transformation through stewarding goats

- Families equipped for sustainability 120+
- Vastly underfunded Churches supported 8
- Churches planted in unreached villages 1
- Full-time shepherds employed 12
- Leaders sent to veterinarian school 1
- Families paying for their child's education 11+

*Families are provided a pregnant goat from the Church - families obligated to give 3 offspring back to the Church in 2 years - 1 goat can provide 5-8 goats in two years*

The goat farm project is bearing fruit. Christ proclaimed, needs being addressed, churches strengthened, disciples created. Addition infrastructure is needed to allow the growing herd to thrive, and more goats needed as churches drawdown the herd for support. Partner today!

### Goat farm expansion needs:

- Land acquisition \$8,000
- Wire fencing \$12,000
- Three water tanks \$3,600
- Four shelters \$4,000
- 300 goats \$100 each

## Take the "Transformation Challenge"

- I need 12 people to help me launch the "Transformation Challenge" (see flyer for more information)
  - Challenge 12 of your family, friends and/or church to purchase 25 goats as a team. That's only \$2,500
  - your team will help spread the Gospel through biblically based economic development tools
  - 12 teammates networking becomes greater than the sum of its beginning and hundreds now involved
  - 12 teammates to lead the charge~ equip the church in Haiti to continue to plant churches, support existing churches, provide families with goats; tools in the hands of Gods people to change lives in Haiti for Christ

**Who is God asking YOU to Challenge?**
