

Servants of Christ - Stewards of the mysteries of God

Grand Ravine - Pastor Wilner standing on the land where the goat shelter will be constructed. The shelter overlooks the new school. Sales of future goat offspring will support school needs.

Ten years of prayer

Spending time with the leaders of the church and school in Grand Ravine this month was truly a blessing. Getting to know them each a little better and hearing the stories about their faith-walk, hearing the vision for

the church and listening to their prayers, wow... humbling.

As we discussed their "Fixer Upper" plans of the school we walked through the roles and responsibilities

"Fixer Upper" walk through

of the Haitian and US teams. Watching their eyes, I could see their excitement well-up with the realization that the school children will have classrooms next year! Currently, students meet in one large room of the church, huddled down in tight corners of the building; the

Foundation of the new school

School in the church building

students struggle to hear over the other teachers.

When the subject of the goat farm arose, Pastor Lexiford told me that the leaders of the church in Grand Ravine and have been praying for ten years that God would provide a program (goat farm) to help the people in this mountain top village. **Ten years!**

Servants of Christ - Stewards of the mysteries of God

Are banana's a spiritual fruit?

Jesus commissioned His church to reach the ends of the earth. Reaching those ends takes resources and THM is delighted and humbled to share resources which plant and sell bananas. Bananas... to fuel ministries? Crusades, mission trips, farming, Sunday celebration, christian education, and more. Mighty are the works of the LORD and of those who follow him. This fruit sure has a spiritual impact! YES, a spiritual fruit. 😊

Pastors... Friends

I love these guys! Lexiford, pastor of development, is cheerleader and ambassador for 18 churches in the network. Counseling teams of 20 or more, he is teaching how to best leverage resources. through lending to each other for development opportunities on their campuses the men share

Lexiford worked with the leaders in Grand Ravine, surveyed the land, identified three large pieces of land to start growing grass for the goats, located land for the shelters and started classes on goat care. He is smart, dynamic and loves Jesus.

Junior & Medjaque

In February, THM provided the funding for a third poultry house to be constructed on Junior's land that will benefit his Uncle Medjaque. His Uncle was the person responsible for sending Junior to college. His life-work as a veterinarian is bringing many to prospering work and others how to raise animals.

Medjaque was shocked when we presented this gift to him. Young people usually receive such gifts, and I am not young he said. No but but you have served for years.

Bois de Lance

My friend Jonny is holding one of the over 1,500 banana tree root balls that were recently planted in yet another farm supporting ministry efforts. THM provided financial resources to lay the irrigation system that draws water from a nearby river.

Jonny showed me just how deep to dig the hole and to properly fill it back up, so now I'm a pro! He also showed me how to cut down cactus with a machete... but I think I'd rather stick to planting bananas.

Faunet & Rose

Faunet was a college student when we provided him with his first chicken house over three years ago. Today, he is a graduate, was married last December, operates two chicken houses and has a full-time employee (Rose pictured above)

He is a principal of the school of his church's and his income affords him to care for his elderly father who lives in a room he built onto his house.

Thank you for all your support and prayers. We can't do this without YOU!
