Our region's AIA students at Winter Conference

New Teammates, New Semester, New Opportunities!

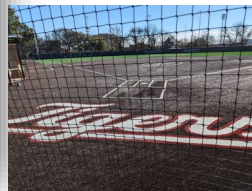

Beginning the year with Winter Conference was a great start! We joined with about 800 other students from the region for great teaching, worship, and challenges to go to the world. We had Puerto Rican staff join us and challenge our students to go and minister on the island—very rewarding to be a part of. One of my favorite days of Winter Conference is always the day of outreach. This year we went out in partnership with a local church and shared the gospel in neighborhoods they wanted to reach. There were some really amazing stories of God preparing hearts for that day. Pray for those that heard and made decisions (and for those that heard and didn't!) Pray that they would all take steps toward Jesus!

My new teammate, Daniel, and I out sharing on the day of outreach.

On right: Baseball diamond at Trinity. Meeting with VP Athletic Director, and partnering with Cru (at Compass Church.)

Praying for laborers for the harvest is something I do everyday. And this year God brought Daniel and Emily to town! They arrived at the end of the year and already I can see how God is at work through them. Because of them we are beginning work on another two campuses! Please pray for open doors at Trinity University and University of Incarnate Word. Partnership is starting with both FCA and Cru in some unique ways as well. This is an exciting development. It takes work but we are trusting that together we can reach more students that separate!

At the Unchained conference I got to lead a seminar on having spiritual conversations.

Watch out for flying discs! This is becoming a more and more common sign around the country as disc golf takes off. Once again this year I was able to both attend and teach at the Eagles Wings Unchained Conference for disc golfers from around the nation. A friend of mine and I shared on how to create space for conversations around spiritual things—on and off the disc golf course. Some of the top pro disc golfers in the nation were in attendance as well as amateur players. The common denominator was a desire to integrate faith and sport together. This lines up very with Athletes in Action. Pray for two things: 1) That those that attended would share Christ more with those around them as a result. 2) That AIA would know how best to minister in this sport.

This month's video! We are going to continue our monthly video update! (Find out why Elijah, myself, and a friend from youth group have the same hat!)

Thank you for your prayers and support! God is definitely answering! We are grateful for you!
