

They Cannot Get Enough

Dear Friends,

114 tribal men, women and children came. They came from a Nation where missions are hindered. 114 tribal men, women, and children. They came by river in long dugout canoes propelled by outboard motors.

They came to be taught God's Word, and they cannot get enough. Never have they been taught this way.

The teachers are not foreign missionaries, but tribal men and women thoroughly trained and disciplined by missionaries Wayne and Patsy Gibson. For 18 days the teachers will present Bible truths from Creation to Christ and will provide an opportunity for the people to express their faith in Christ.

Pray the people's hearts will be opened to understand and receive the gospel message.

Those who show evidence they understand God's message will be given the opportunity to train to become teachers themselves. Developed by Wayne, this hands-on, practical course gives prospective teachers the tools they need to teach the Word. New Teachers will return home with Bibles in their language and printed materials to reach their villages for Christ.

Believers taught to disciple — a very New Testament concept, don't you think? And you had a part in this — yes, you did!

Your gift to Macon and I helped us provide the gift of a laser printer to print thousands of pages of Bible lessons. **Your gifts also helped us buy food and hammocks** for the tribal participants during the month-long Bible course.

May God bless you for blessing us and for blessing the Gibson's and the Piapoco nation.

Macon and Katy Hare

PS Patsy Gibson is Katy's sister, and we all thank you for your gifts.
