Campus

So, here are updates on a number of things!

The Porn Nation event was a huge success. We had 256 students come to hear Michael Leahy's story and learn more about sexual addiction.

Of those students, 14 indicated a decision to surrender their lives to Christ, 64 wanted some kind of follow-up conversation, and over 100 received articles with more info and resources about sexual addiction.

It was definitely an issue on campus, so thanks so much for your prayers!

One freshman girl said she realized she was already living a sexual addicted lifestyle, and was so thankful for Michael and the event. We have been

able to offer follow-up Bible studies for her and the others who wanted to find out more about what the Bible says about healthy relationships.

---Additionally, our JJ Heller concert was also a great success. This concert was to promote World Vision's efforts to fight human trafficking. We partnered with a local Chick-fil-A [always good when that happens] and had 300+ students attend and receive free chicken sandwiches.

A number of students sponsored children and were given info on ways to advocate and get involved with stopping human trafficking.

---Both of these events were great as it gave our students some vision and focus to changing the culture on campus. If you don't remember, just last year, SDSU was voted 'Most Degenerate Student Body' by Radaronline.com, so it has been great to partner with the campus to change that image. SDSU itself gave over \$4500 for us to pull off these two events, the most I've EVER seen a campus give to events we've done.

---Another update is about our work at Grossmont College here in San Diego. Community colleges are typically hard because they usually lack much community. Just this last week, I was able to do a training time to help our students there figure out ways to reach out and minister to/love the students God has put in and around their lives. I look forward to see what they will do with it as they were already dreaming of ways to initiate with other clubs and even to partner

with other clubs on social justice issues. Many of these students will be transferring to SDSU, so it has been a great partnership that ends up feeding our ministry at State.

Etc....

- Passports are ordered and we are starting our planning for the summer in Australia.

- **Please pray as we finalize our budget and finish looking through student applications.**
- **Please pray for Monash University in Melbourne, as this will be our main ministry site.**
- **Please pray for favor as we look at ways to partner with the campus.**
- **Please start to pray for travel safety since many of the students applying are from all over the country and we are taking our 3 kids.**
- **Pray that we can further the efforts of Campus Crusade Australia and what God is doing there!**

*In His grip,
Kyle, Wendy, Malia, Carter & Avery*
