

JUNE/JULY
TWENTY:15

two:10

T "That was different than I thought it would be. I feel waaay better about going to college than I did before." Pretty incredible feedback from a cool, leaning-back-in-his-chair, senior *dude* at our recent seminar to help students and their families make the transition to college.

Thank you for praying for this event [we were asked to do it a second time!], and for us.

Part of the ministry of two:10 is helping people do transitions well. It is clear that God works intentionally while we walk through transitions. During these uncomfortable times, God nudges us and transforms us. High School to college, college to career, middle life and beyond...

The Freshman 15

15 ideas for a doing college well

Recent seminar topic

God is always at work with a next step for us to take.

Working with college students, we've seen some excel and others falter. Often these 4 years set up the next 5-10. Students leave, not sure if they're ready and parents aren't always sure they've equipped their kids with what matters most... **the strength of character to overcome what will be faced at today's universities.**

We enjoyed giving families 15 ideas... 12 to go after and 3 to avoid...to excel during these years.

Please pray for new opportunities to share The Freshman 15 at other locations.

This opportunity also opened the door to work with the millennial-age group at this church.

With the success of the seminar, trust was built and Wendy and I will be helping develop and lead a

discipleship trip with 20 of the core people in this group. The door is also open to help create a dinner centered discussion program. We get to go after the hard topics of sex, dating, career, community, same-sex attraction, etc.... These will be monthly events and our hope is that through the relationships we build, we can focus on discipleship and evangelism. We are stoked!

Prayer Request

—Please pray for Malia...and us...as she gets ready for back surgery in early July. She has significant curvature related to scoliosis and needs surgery to improve her quality of life. The recovery will be challenging and we'd love your prayers.

MANY BLESSINGS,

Kyle, Wendy, MALIA
