## Willing to Go, Daring to Dream, Determined to Reach!

This has become the mission statement for our team and ourselves here in Otavalo, Ecuador. We have been going into new communities and sharing the gospel with people that have never heard the gospel of Jesus Christ before. That's kind of hard to believe,

isn't it? We are dreaming of big things happening here in the future. We are still in the middle of building the training center, and we will have all the walls up by the end of the summer. Don't forget that we are reaching out with the love of Jesus, and because of that, we are making a difference.

## It's Been A Busy Summer

We have been slammed with teams this summer. We are so exhausted, and we need a vacation. However, it has been AWESOME. We have advanced so much with the construction on the project, despite the many obstacles faced along the way. God has prevailed in every situation that we were confronted with. We just finished our first week of VBS, where we ministered in 2 different Quichua communities. At the end of the week, we had ministered to about 350 kids. This year, our theme is the Armor of God. Each day, the kids make a piece of the armor to take home as their craft. Can you imagine these kids walking home through their community wearing their armor of God? In one community, we were able to minister to several kids whose fathers were Shamans (witch doctors). Take a minutes to let that sink it. These kids went home, wearing the armor of God. God is tearing down the strongholds that the enemy has had for way too long.

## Coming Back to the States

We can't believe it, but it is time for our itineration cycle. We will be coming home to start itineration at the end of this year, and I have already began to schedule services. If you would like for us to come and share, please send an email to [shannon.pruitt@agmd.org](mailto:shannon.pruitt@agmd.org) or message us on Facebook.

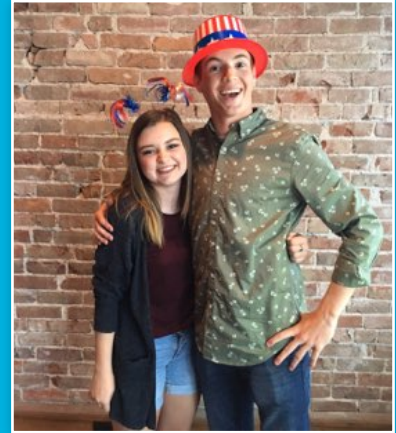

**Our training center project is coming along great, but we still need your help to reach the unreached and to finish strong.**

**Thank you for your support. We could not do what we do without you.**

**Here is a little look into what has been going on here for the last few months: VBS, construction, and just hanging out with our friends. We love what we do!**

***What have Ethan and Megan been up to?***

They have had a great summer. They both worked at AGWM's School of Missions in Springfield. Megan loved taking care of the 5-6 year olds. Her leader name was "Chief Guagua" (which means child in Quichua). Ethan was involved in logistics, and he was able to be a chief for the 13-14 year olds for one week. His leader name was "Chief Pig Soovie" (of course). Once their summer is over, they will both be going back to Evangel University to start their Junior years of college.
