So close, yet so far away.

We are close to purchasing land for our church, but yet it seems so far away. We have the opportunity to purchase 1000 meters (less than an acre) for \$60,000. It's in a prime location about a couple blocks from where our church is renting right now. However, we are \$30,000 short. I know that seems like a lot of money but God is never short on money. Our church is doing everything that we possible can to purchase this property. Our pastor is willing to sell his car, we are doing faith promises, and selling food after church. Our people are very excited about this opportunity and we are believing that the Lord will provide. If you would like to give towards this land purchase, it would be greatly appreciated. We are wanting to have this purchased by the beginning of 2014.

But seek ye first the kingdom of God, and His righteousness; and all these things shall be added unto you.

Matthew 6:33

Merry Christmas from our family to yours!

Can you believe that Ethan is a Senior this year? We can't either! Where does the time go? He is playing basketball this year and he's looking forward to graduating in June 2014.

Thank you for supporting our family. We could not do what we do without your help. We are very thankful to each and everyone of you. You can keep up with us on our blog or Facebook.

Megan is in the 10th grade. She enjoys reading and has found a new interest in running. She also loves to bake and she's really good at it.

We've been busy since arriving back in August. We were able to find and move into our apartment three days after our arrival date. That's crazy, I know. We did have help from our pastor with the apartment hunting before our arrival, which was a big help. Three weeks after we got here we hosted a couple of ladies (Angelia Carpenter and Jackie Underhill) from Arkansas in our home. They were here just to check things out and do some ministry. While they were here they help us lot with stuff for our apartment and some painting. We were able to do a woman's conference at our church and it was a huge success. We can't wait to work with them again.

Shannon spent the first two months filling in for our pastor while he took some much needed time off. It was really hard for him to get back in the groove of Spanish but he did it and did a great job.

The kids started school on September 2nd and have been busy since. They are looking forward to the Christmas break. They don't get out of school here until June 30th. That's a crazy long school year. Please pray for them because it's been a really hard

OTAVALO

Angelia Carpenter holding a little girl at a church that we went to visit in Otavalo. We had a great time ministering to the children at this church.

Angelia, me, Jackie, Megan, and Luzmila. She was the first Indian woman to be ordained in the country of Ecuador. We are looking forward to working with her this summer.

adjustment coming back to this school.

I have been busy decorating the house and doing a lot of DIY projects. You probably already know this if you follow our blog or on Facebook. I'm loving being back here and I'm just thankful for my good health. There's really nothing better.

We were able to get our visas before our time ran out on our tourist visas. We were very thankful for that. We've been taking care of a lot of paperwork on vehicles and such and getting everything back in working order. It's a huge job and we'll be glad to have it all done. The next thing on the list is drivers licenses. (the test is in Spanish)

LA PRESENCIA-OUR CHURCH-MIRACLES

They were told that this baby needed brain surgery but after an appointment with a specialist they decided no surgery. But the baby needed a helmet that was going to cost \$4000 and it was only available from the states. They were able to get the helmet within two weeks for free!

This lady was sharing her testimony of how God healed her from cancer.

This man was practicing Santeria. (which craft) He got saved!
