## SUMMER PROJECT 2011

MAY 20, 2011

### PLEASE PRAY

- Praise God for an awesome first year on campus at the University of Washington!
- Pray for God's protection on our travels and family. Pray that God would lead us as we raise 5 month old Braydon.
- Pray for Chris, Taylor, and Josh that God would use this summer in Lake Tahoe significantly in their lives and relationships with Jesus.

“The Lake Tahoe summer project was life changing for me; it was there that I first understood what it means to walk in the power of the Holy Spirit.” Melanie, a UW student, spent last summer on a Campus Crusade for Christ summer mission project in California.

Our family leaves in less than two weeks to serve on the Lake Tahoe summer project. Journeying alongside students and mentoring them in their relationship with God will be our primary role. We do this by leading them as they study God's Word and equipping them to be intentional in sharing about Jesus with others. On top of this, the summer is sure to be packed with fun!

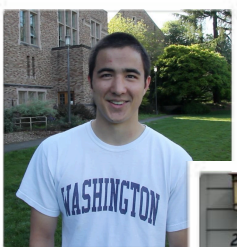

Over ninety students from all over the U.S. are joining us, along with other CCC staff from around the Northwest. As God transforms the hearts of those attending, He also transforms the hearts of people in the Tahoe community where students will be working and ministering at full-time jobs.

Chris, Taylor, and Josh (photos at left) are three University of Washington students who are coming to Tahoe with us. Pray for them that God would use this summer to begin to deepen their relationship with Christ; a growth process that would continue for the rest of their lives.

### GODLY MEN AND WOMEN

In the words of one of the guys on our camping trip last weekend, “**Men don't retreat, they advance.**” The annual ‘Men's Advance’ included eating bacon around the campfire, swimming in a glacial river (photo at left), and-more importantly-significant conversation about being a man of God. Meanwhile, Sam was visiting with ladies about what it means to have a Christ-centered identity at the ‘Girls Overnight,’ where they enjoyed fresh fruit dipped in a chocolate fountain!

I love to see the little pieces like this of the bigger picture that God is painting. He is raising up godly men and women from the University of Washington who will one day have gospel-centered families, share Christ in their workplace, and serve the local church. Thank you for investing into this work with us!
