

January 2024

"Winter conference is a gathering of college students experiencing Jesus, growing together in our faith, and discovering our place in the Mission of God."

This December, from the 27th through the 31st, I (Emily) was assigned the task of leading the entire videography team for Winter Conference in Indianapolis.

While I was excited about this opportunity, I was also very nervous I've never before lead a team like this, and I wanted to do the best job could at capturing this year's conference through video, producing videos to use at the conference, and collecting footage to use for promotional material next year.

It was a challenge, as I anticipated, filled with many tiny mishaps, obstacles, and incredibly long hours - all made more difficult by being 22 weeks pregnant. But, thank God, it went so well!

Our team of 4 worked hard all week, capturing hundreds of hours of footage, producing four short videos to be used at the conference, and filming one special project that I hope will be edited and available to share with you soon.

While I was working behind the scenes, over 100 staff worked together to produce a conference and interact with students to help them learn more about God, serve the community of Indianapolis, and discern what further steps God might be asking them to take after the conference. We experienced some incredible things!

Yours in Christ,

Clay + Emily

FAMILY UPDATE

We enjoyed a wonderful Christmas, visiting with family and celebrating the birth of Jesus.

Emily and Baby Boy Selway continue to do well! Baby Boy #3 is growing exactly as he should. Emily continues to feel about as well as can be expected for someone who is six month pregnant. Please continue praying for the health and wellness of both mom and baby. In particular, Baby Boy is breech at the moment, so please pray he would flip into the correct position for birth.

Both of our other boys are also doing well. Elliott is continuing to thrive in homeschooling, currently blasting through kindergarten math and I think soon we'll move on to first grade math. Judah has finally found his voice and never stops talking (a great improvement from nearly needing a referral to speech therapy!) They are very excited for the arrival of their new sibling.

PRAISE + PRAYER REQUESTS

- For the students at Winter Conference, that their hearts may continue to turn towards Jesus
- For the upcoming semester - as you are receiving this, we are likely meeting with students with the intent to share the Gospel and making plans for the next semester with our student leaders and involved students. Please pray for the Lord to continue to work and move on our campuses.
- For our family. Specifically, for a continued healthy pregnancy. For our entire family to stay healthy and avoid illness. And for the Holy Spirit to continue to work on the hearts and minds of Elliott and Judah.
