Redemptive Community

A key aspect of a spiritual movement is gospel-centered community. When brothers and sisters in Christ experience redemption together, it creates a deep bond. That excitement and passion for the gospel then overflows into the lives of non-believers in an attractive way. We see a clear picture of this in Acts 2:42-47 as the Church is just beginning. We are trusting God for this type of community!

The hardest part of the past two years was not being able to gather in large groups. Though our small groups were going strong, the lack of broader community really hindered our movement building. As we move forward, we are anticipating how God will build gospel-centered community amongst our students.

A recent example is hosting Easter dinner (4/17) where we welcomed and fed 27 hungry college athletes. It was great to have a large group of students from three different campuses. Our kids enjoyed having students in our home and we love being in it together as a family. Thank you for partnering with us in the mission!
