

Nich & Tricia Beebee | November 2015 | Epic Movement  a ministry of CRU 

This month we want to introduce to you who we do life with day in and day out!

Even though we are in our second year here, we are challenged everyday and can often feel alone. We love that Epic values us doing this with a team so we can really carry each other's burdens. These girls put huge smiles on our kids' faces, they bring us random food gifts (because they know how fast we can go through food) and they've been a joy to get to know!

Sarah is the sensitive soul of our team. She is discerning, caring and she always goes out of her way for each one of us. She loves to be creative and completely changed her very “single-man” apartment into this beautiful Scandinavian Forest theme. She recently graduated from George Mason University and although she lived in China for a number of years when she was younger, she is readjusting to life here after 10 years!

Ellim graduated from George Mason this past spring too. She has the loudest laugh and loves to just have random fun. She’s always taking notes so has become our official secretary. One of our favorite moments with her was just walking around an old part of our city taking in the old ancient pathways. We love to explore with her and she has a special little bond with Tosh - he calls her “Eyim Aiyi” - Auntie Ellim.

We laugh with **Pri** often about how strange it is that her personality is so much like Nich’s! Good thing her and Nich are leading together this year! She is the only person on our team committed as ICS (International Campus Staff) so she plans to live here 3-5 years. That provides so much continuity and a good perspective on planting our roots here. She is a missionary kid so we learn how to be resourceful from her all the time.

Jamie is our prayer warrior and our patient, community oriented teammate that loves harmony and Google’ing anything and everything. She is in her second year here and is really thriving. She helps us relax because she’s very relaxed and goes with the flow.

Bao is our energizer bunny! She can run around and after our kids like no other and mainly interacts with our students through sports and play. She is one of the best cooks on our team and makes a mean pot of phở!

It might be obvious but we have no men other than Nich! Would you please join us in praying for especially men to feel drawn to serving with us next year and for the years to come in this city? Thank you for praying for our team & our family as we trust God for much here!

Blessings,

NICH & Tricia
