

Nich & Tricia Beebee | June 2015 | Epic Movement  a ministry of Cru

Wow, we cannot believe a year ago we made the move from California to East Asia. It has been such an adventure. Even through the many challenges and the freezing cold winter, we are so glad we have answered God's call to come.

Since we are leaving for the summer to raise more support to come back for another year, we have been spending a lot of time saying goodbye to students and our team as well. As we mentioned, our one single guy on the team, Steven, is headed back to Hawaii and won't be joining us next year. But we have two gals, Ellim and Sarah, who are very recent grads from George Mason in Virginia that are raising support now to come. ***Please pray for God to provide all of their support needs as well as Jamie, Bao, and ours as we all return for a second year!***

We had the neat opportunity to travel to a coastal city nearby for our end of the year staff retreat. It was such a sweet time just encouraging our teammates and getting time to unwind from a busy year. It was especially neat for Nich to see his old home and campus when he originally took the leap to live in that same city for two years straight out of college. Having lunch with a couple he used to serve with here that have served here for 16 years, was encouraging. They came here the same age our kids are now, and although we can't imagine living here for 15 more years at the moment, we are taking it year by year and will continue to seek God on what He wants for us.

Enjoying some delicious & cheap seafood on the pier together!
