

# Thousand Hills Ministry

February 2019

Proverbs 3-5  
Trust in the Lord with all your heart, and do not lean on your own understanding

Our eyes tell us this is a road block. That is true, it was! With man this is a road block the Feb team encountered on the route to the ministry house from the airport. Our understanding.

**God used this obstacle**, rerouting if you will, to show us His plans, His purposes for the Feb team. Purposes that center on our hearts, not projects. Oh how His plans are far above ours!

## February Mission Team Victories

How glorious our Father to teach/remind us about His ways and the ones He loves. His word and His people.

As most know, Haiti was going through a tough two weeks in February. It has normalized now, but God's providence was on full display.

We could see with our eyes the unrest and its effects (little if any gas, roads blocked, commerce suspended) but we did not see at first what a blessing that would be.

Flexibility is an essential part on any Haiti missions trip, but this trip pushed that limit. Our medical outreach team could not drive to the remote village we planned to visit, we instead walked to a nearby village and cared for over 150 people in search of medical attention. Two planned days turned into one long day as people kept coming and the church leaders in that village were so blessed to have a team come and help. Leaders prayed for help, road blocks is how God answered those prayers.

Road blocks also prevented us from going into Cap Haitian and getting all the supplies for our projects.

Resulting in lag time, producing a great story. The picture below is of some of our team members playing with kids outside the seminary. What makes this impactful is that usually most missionaries will hang out only at the orphanage (just to the left in the picture) and visit with the children behind the block walls, as the children in the village see it. However, this day missionaries are playing with children from the village, too!

*Lean not on your understanding*, we know the orphans need love and affection, the children in the village also received love and affection this (road-block) day as well.

*Trust in the Lord*, - delays and roadblocks in our lives are used by God for his **lasting purposes**.

How many hearts were touched on this trip? God knows, and I can tell you by experience that 13 American hearts were touched and reshaped in powerful life changing ways this trip.

Oh, by the way, the team helped lay tile in the seminary second floor, installed wifi signal boosting device, sanded and primed all the seminary interior walls for painting, and cared for medical needs. 😊
