

MERRY CHRISTMAS

Dearest Family & Friends

We hope you had a very merry Christmas - we are in sunny Arizona celebrating Christmas with our amazing families; enjoying the desert, the mountains, even javelina scouting! Arizona- is always our home, but our assignment is Haiti.

Next year - Opportunities to serve

- We have a team forming now raising funds to purchase land and to help build a church building. We invite you to help recruit people who would like to go with us to build the church. We will be working under a Haitian supervisor and helping him construct their church, we need people to go and serve.
- This past summer I told you about Pastor Wiljean and his ministry garden in Hinche. The results of the first rotation of crops is amazing. The demand for the peppers and cabbage that they are growing is high and THM would like to help expand upon the current practices in order to multiply the efforts. See the reverse side for more details.

We are looking forward to an exciting new year of ministry and working with those who God has called to serve Haiti with us.

For Christ and His Kingdom,

brian & kathy

Hey friends- The last two newsletters contained information from old newsletters. Technical glitch, sorry.

Thank you for making Thousand Hills Ministry a part of your worship onto God. We are humbled by your sacrifice and honored by your prayerful commitment.

We can't do this ministry work without YOU, and we don't want to!

All gifts are tax-deductible and should be made payable to:

Thousand Hills

Ministry

Kingdom Investment

- 5 year lease of 100 acres
- Water Tank ~ Pump ~ PVC
- Seeds ~ Fertilizer ~ Supplies
- Storage building ~ plow

\$7,500

Hinche garden today

Multiplication

My friends in Haiti planted a two acre garden this past summer to support their ministry. It's producing great results. They were excited to show me on my last trip. **Their** initiative, **their** risk, and **their** reward. Fantastic! What next...

WATER ~ Flood irrigation is effective, but not efficient. It is costly to run a gas powered pump to water crops.

Solution... Water tanks and drip irrigation.

LAND ~ Demand is very high for peppers and cabbage in Port au Prince. Wholesalers scour the hills looking for growers.

Solution... Lease 100 acres of land for 5 years. Strategically expand.
