

It is time to rethink poverty. It is time to put the **person**, made in the image of God, at the center of the economy. It is time to help **unleash the entrepreneurial spirit of the developing world.** When we put the **person** at the center of our economic thinking, we transform the way we look at wealth and poverty. Instead of asking what causes poverty, we must begin to ask, **what causes wealth?** What are the conditions for human flourishing from which prosperity can grow? And how can we create and protect the space for people to live out their freedom and God-given responsibilities?

THOUSAND HILLS MINISTRY seeks innovative and practical ways to financially **strengthen the third world church.** We do this by developing in-country business opportunities that drive job creation, thereby encouraging economic health and vitality.

Now is the time to invest in rebirthing an industry. Thousand Hills Ministry is currently working alongside ODH and Living Hope ministries to develop jobs in the poultry industry. Economic conditions are ripe to begin the construction of numerous chicken houses. More than wood, nails, and wire, chicken houses are jobs, economic health - **sustainability.**

IN FLORIDA God has paired Thousand Hills with a Christian ministry foundation. The accounting division has caught our vision and have agreed to provide for us in the area of critical services, including accounting and booking, tax filling, receiving and receipting of financial donations. This foundation will provide our financial oversight, and they themselves have a one-hundred year reputation, as well they perform

accounting services for several of the most well known ministries in the US. They have offered to grow with us; they believe in our vision and want to partner together to see us grow. God Sighting!

IN HAITI A team of four men surveyed ODH land and staked out our first chicken house.

IN NEW YORK I attended a conference that allowed me to network with future partners in a movement focused on rebuilding Haiti through industry creation. I am already collaborating with several of the NGO's to leverage resources and opportunities, one being World Vision.

Thousand Hills

Be a part of this exciting time in developing vital opportunities in Haiti.

Contribute to our ministry, we have a need of \$17k in start up costs.

Share our vision with others who have a heart for strengthening the third world church.

Go to Haiti with us and build industry.

Pray that God will be glorified in all we do.

Family side

Florida News.....

Zac showing off his new smile as he got his braces off this month. After 2 1/2 years of heavy metal mouth his first treat request?... a pack of bubble gum! :-)

Bree and her soccer team take Atlanta and win the 2nd place Cup! Playing in rain bands from hurricane Irene, Bree shined on the field while Brian and I enjoyed our soccer family for four days of wild cheering!!!

Vote for Joshua! Josh is powering-up for politics at school and running for VP has become a passion. He made campaign promises to help the media center and boldly invited God to bless his public school.

As I write my heart is recalling the past 3 years of full time support raising ministry work. Where the earthquake in Haiti not only shook-up a county my family loves but has challenged us to do more. A dear friend encouraged me to keep a missionary journal

during the first trips to Haiti. Now, I go back to the journal and see God moving us. God calls people who are going. Brian has been going to Haiti since 2003 and every return home, he would be struck, melencholy; believing there is more, more to serving the needy. And so we keep going! Pursuing more of our heart and there we find God. We see what he is doing in Haiti and everywhere We join

Him. Also, we are trusting God to supply our need for monthly supporters and prayer partners. As Brian goes into Haiti his aim is to pour his energies into the production of

helpful goods and services, create jobs for the poor, and mentoring the church to do the same. You, too, can help us help others advance God's kingdom in the world when you partner with us.

Thanks for your faithful support of our family as we served Open Door and now, as God expands our territory.

With affection,

Kathy and Brian

Our support is going through ODH until the end of the year.

Thank you for all your support and prayers. We can't do this without YOU!

We seek innovative and practical ways to financially strengthen the third world church. We do this by developing in country business opportunities that drive job creation, where-by encouraging economic health and vitality.

WE ACCOMPLISH THIS WITH 3 E'S:

EXPLORE

Currently we have ministry relationships in Haiti that have the proper blend of enthusiasm and skill to become business owners. We will explore the right opportunity to match their skill sets with a business venture, thus creating jobs, and sustainability.

EQUIP

Provide the training, tools and financial resources necessary to achieve profitability in the identified business opportunity. In-country business ownership is critical, we will not proceed without it.

ENCOURAGE

Profitability is the goal for each business owner we partner with. Whether the business owner is a family, church or community service (clinic, school, orphanage.). We encourage our partners to use the fruits of their labor to help others.

2Thes 8, "nor did we eat anyone's bread without paying for it, but with toil and labor we worked night and day, that we might not be a burden to any of you.
