BODY SOUL

BIBLICAL RESTORATION

THE GOSPEL IN WORD & DEED

Out of the Magauyave goat farm **5 additional churches** now have a multiplying goat program in their village. Pastor Odimond (blue shirt) and chief shepherd, Orales are delivering goats to the church in **Quanaminthe**. Thank YOU! YOU are partners in planting and supporting church ministry, fulfilling God's command. Your partnership in investing in the Kingdom makes this happen. **Praise God!**

GRAND RAVINE I recently returned from a trip to Haiti where I was able to connect with local missionaries and church leaders. I traveled around with Pastor Donnson investigating hurricane damage and surveying immediate needs. Pastor Donnson is in charge of all the crusades within his network of 17 churches, he also trains leaders in disciple making in all their locations. I can't remember when I first met Donnson, but I have known him a long time. Seeing him this trip rekindled our shared vision to serve Haiti.

Together we visited a church in Grand Ravine where he introduced me to Pastor Wilner. Pastor Wilner shared with me how God has been moving him to see the elderly in his church and community. Gardening, digging, and just finding food, it's not easy in Haiti at any age but certainly not for the elderly. "God continue to put on my heart the church to care for the elderly and to build an old

person home", he said. Seeing the Grand Ravine church location with its vast land and ample irrigation, it is an excellent location for goat and crop farming. Pastor said there are many wise farmers in this area. A sizable location which would support even more of the new church plants in our partnership. Currently his church has 25 goats. Sadly, Pastor Wilner had to leave shortly after we met. His wife, RoseMyrlande was in the hospital and they had learned only the day before that she has ovarian cancer and needs to have surgery very soon. They have 3 children ages 10, 7 and 3 years old. Please, join me in prayer for this precious family and how together THM can partner with his church and his family.

Urgent Needs

Worship center

Lacienne

At first glance the worship center roof looks good, however, metal sheets have been ripped free from the nails during the hurricane and now flop in any kind of wind. Total loss. A new roof is needed and a construction team of 10 to go in January and work alongside our friends to install the roof before the rainy season.

Loss of livestock

Sustained rain and wind took its toll on the animals leaving behind more than 30 dead goats. A huge setback to our thriving herd. But, God is not overwhelmed and so many of you have asked how you can help replenish the herd.

\$100 buys a goat for the farm

Goats are raised and sold, fueling the planting of churches, sustaining ministry outreach programs, supporting pastors and elders. They are also given to families in the community. Power outreach tools!

Ministry leaders serving Christ

Thousand Hills Ministry is committed to serving Haitian pastors and their families, encouraging them with ministry support and economic tools that assist them to teach and show Christ and his love; imparting our talents to strengthen and encourage the body of Christ to bring fruitful ministries and eternal change.

Limbe

Junior continues to steward well this gift and people are taking notice. The university has asked Junior to teach classes to the agronomy students at his business. Not only are students learning about chicken farming they are hearing Junior's life story and the eternal message of Jesus. Pictured with Junior is his uncle. Would you like to support Junior build another chicken house?

Pignon

The church recently moved into their new building and provided with 25 goats from the Maguayave farm. The church leaders in Pignon are setting up to launch their own goat program and now they have land in which to expand the farm. The church programs include disciple training, mission outreach, and gospel life serving their community.

Caracol

The church in Caracol is thriving. Pastor Payot has developed a strong leadership team of 15 men and women in the young church plant. Over 100 people have put their faith in Christ since the beginning. The leadership team is equipped to serve, next step, development projects to meet other needs in the village.

Students

Many of the churches and church plants within our partnership have schools to meet the educational need of the communities they serve. More than ever before families are now able to help pay for a larger percentage of their child's education as the goat program matures in Laciennne and is shared. The model will multiply and where churches have land - another opportunity for a goat farm.

In rural Haiti, goats are a practical resource used to strengthen the church and encourage families with an economic opportunity.
