Ministry

April 2023

God has provided the vision and resources to build a campus to train ministry leaders to proclaim Christ in word and deed. The picture above provides a look at some of the farm land used to sustain the seminary and orphanage and if blessed to feed the hungry in the village. Picture was just taken in a extreme drought. Future needs of the seminary are identified in green text. Solar power is such a value in

Haiti with gas prices still over \$26 per gallon. The only garden watered by solar is below the orphanage and anything on the seminary campus. With more panels and batteries we can water consistently the land across the dirt road from the seminary, a close walk for students to work on their own garden. Other needs are dorm rooms and covered patio. We are completely out of room for bunk beds. With more students expected next year,

sleeping on the floor in classrooms is what we are facing. As part of the board, it is my duty to cast the vision for future expansion and raise the funds and teams to build the new dorm rooms. The land behind the seminary will be available for purchase when we have the money in hand. Expected price is 30k and the land is twice the size of the Fellowship Hall.

Serving Christ brian

Meet Osianie Pierre Gilles she lives in Laciennne with her husband Joselien, who is a gardener, and they have one child.

Osianie is a member of the worship service team and one of the cleaners of the church.

She is one of the beneficiaries of the goat farm project and has been blessed by the results. She took the funds from selling young goats and leveraged those funds to borrow more money called "Tipa" where

people can register and get access to loan money with a low rate. (more on that next month. All 36 churches collect money and started their own bank with managers and lending departments)

With the loan from the church bank, she has started a small food products business in the community of Cerca, the bigger part of Laciennne. She buys bags of; corn, beans and peanuts from local farmers, processes them and goes to the big town of Ceca to sell finished products. After paying taxi fees, she comes back home with 15% over each bag of products, fortunately this initiative is increasing, she uses the profit to take of her family, paying for school and is almost finished with paying off her loan.

Joselien and Osianie are planning to build their house soon on a plot of land they bought last month. (pictured above)

So then, as we have opportunity, let us do good to everyone, and especially to those who are of the household of faith. Gal 6:10

Story by Zachary Pauluscart - Ministry reporter for THM in Haiti

Caracol Church update -

Pastor Peyot gave me an update on the church plant from 2013. THM had provided the funding and some construction teams to help build the worship center.

The church is thriving with over 150 people growing deeper in the knowledge of Christ, making disciples as Jesus has commanded leaders to do.

Praise God that the gates of hell will not prevail against the church.

Thank you for all your support and prayers. We can't do this without YOU! All gifts are tax-deductible and should be made payable to:
