

Dear Friends,

September 18, 2017

I am deeply grateful to take a moment and share the many amazing stories God is doing throughout the world. Here are a few of the exciting stories just from some students this last month.

On the left is a group of students who attend Tennessee State University and Fisk University. One of the students named **Hagakiah** is pursuing his dream of attending Harvard graduate school while still building his faith and leadership by co-leading weekly Every Nation bible studies on campus.

In the middle is a picture of my son, **David Neil**, and 6'8" **Jake Moore** from Belmont University, after a recent football game. Last year I took my son to join me in bible studies on the Belmont campus. It was there that Jake really connected well with my son on many levels. Jake wants to support my son by coming to his games, which, of course, my son thinks it is so cool to have college students come to bring encouragement.

On the right is my friend **Shreejit** who is a graduate student from India. He and I have become good friends and I have shared my faith with him on numerous occasions. The other day, he called me with tears in his eyes and asked me to pray for his father who recently found out he has cancer. Even though he has a Hindu background, he wanted me to pray for him. Before we prayed, I explained the gospel to him and thankfully his heart and mind were open. I am going to continue to believe God will reach into this situation to bring salvation and healing.

Last and certainly not least, I am helping plan a "God's Not Dead" outreach in **Iceland** with Dr. Rice Brooks Sept 23-30. We will be reaching out to Reykjavik University, which is almost 100% atheist. Please pray for our time to be effective and for the Icelandic students to be receptive.

You are a gift from the Lord and we constantly remember you in our prayers. We can't do this without you and together we are impacting the world!!

All our best,

Your partnership in the
gospel is a great gift!!

Dave and Mandy
