

“All In” at TCX

UW-Platteville's contingent at TCX! What a great group!

We had over 125 students attend TCX from Madison. Pray that changed lives would bring about change on the campus.

"TCX gave me a chance to get out of the crazy cycle of life and really connect with God. The atmosphere was such that I could meet with God in a very real and personal way!" - Marcis

TCX really was a great time to connect with God as Marcis stated. Marcis is leading the movement at UW-Platteville and it is a joy to work with him there. One immediate side-effect of TCX was that upon returning from TCX, Marcis immediately filled out an application to do a one-year internship with Campus Crusade. That is exciting. I can only begin to imagine the impact that Marcis and the rest of the Platteville men will have on their campus in this next semester. Hearing their stories of how God spoke to them during the conference was, to put it in one word, inspiring! Thank you for praying for them.

In all, there were 1508 students who attended. What is most exciting, because of the future worldwide impact, is that over half of those in attendance made a decision to give the Lord control of their lives. And 321 made commitments to fulltime Christian ministry for at least one year. All I can say is “Amen!”

Prayer Requests:

- 1) Classes began this week. Students come back from winter break and some are coming back from a great break where they really walked closely with Jesus. Others are returning after a very challenging time. Pray for these students that they would begin this semester well. That those who know Jesus would walk more closely with him. That many students would begin a relationship with Jesus during the semester.
- 2) Pray that God would direct us to the right students who are spiritually hungry. One dorm, Witte, felt like hard soil last semester. Pray that God would soften students hearts to the Gospel.
- 3) Pray for DeAnn and I as we figure out what being parents and being ministers to college students at the same time really means! Pray that we would do both well and walk with Jesus through it all.
- 4) Praise God with us for a healthy baby boy, Elijah. (And praise God that he's giving us more sleep too!)
- 5) Praise God with us. God provided all the necessary finances to cover our one-time hospital bills.
