Weekly meeting at Palo Alto. Only group on campus meeting weekly and so visible that even the security guards stop by for the snacks!

4 New Believers at PAC

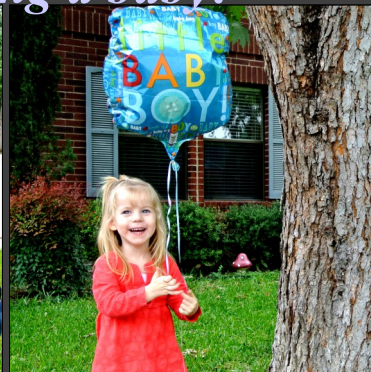

On Tuesdays after lunch, a group of ten students have been gathering on the campus of Palo Alto (PAC) to learn more about Jesus. Two of these students even joined us for our Fall Retreat. We've seen four PAC students place their faith in Christ the last few weeks!

We have teammates working on different campuses in San Antonio. Nate and Jess are seeing God do some amazing things at PAC on the south side of the city. The student movement is growing! Thanks for praying!

God has also provided two volunteers, Angela and Sarah to lead a women's Bible Study on Thursday nights. And a local church has partnered with us to provide food each week for the students. And as we all know—college students love food. We are seeing God answer so many prayers!

We're having a baby!

And some big news for the Gerard family:

Campus movements are not the only things that are growing—so is the Gerard family! On March 27th we are expecting a baby boy. Elijah is super excited to have a little brother. Lily has now started carrying around a little doll. And they both say things like, “When the baby comes we’ll teach him _____ (fill in the blank with lots of things!)”

A couple interesting facts: 1) This baby boy will be the first Texan in our family. Not sure but I’m pretty sure it will mean that “ya’ll” will be in his vocabulary—although we will try and keep “you guys” alive. 2) He will be our first child to not have to survive heavy snow and freezing weather in their first months of life outside the womb. He will however learn to love air-conditioning all the way through October. 3) Cheese-curd will be all but unknown to him but he will grow up loving bbq brisket. 4) Lily’s first photo credit! She somehow managed to take our photo (on left.)
