

“Under Construction” at our National Conference

Praising and worship God. Learning to follow after Him. Being challenged to become more like Christ. Students at our recent National Conference experienced all of this and more. The theme was “Under Construction: From the Inside Out.” The whole conference was centered around the idea that we are all under construction and we all must be willing to let God change us from the people we are today into the people He would have us become. It isn’t a one day thing, nor a one conference thing, but we are trusting God that, during the National Conference, students who attended began to take steps along that path. Thanks for praying and supporting this effort! Here are a few comments from students who came:

One of our jobs at the conference was to mentor and coach the members of the praise band! As we both love music it was fun to work with these students as they led in praise.

“It reminded me that I serve and follow God not for what He gives me or has given me, but for who He is, and He is truth and love.”

“It helped me to recognize that I must give my life and my heart over to Jesus.”

“In making me realize that I need to change a lot of areas in my life and that’s because I haven’t given them over yet to God. God was dealing with me during all the talks and the day of evangelism.”

“Thanks so much! You are reconstructing people, but at the same time you are reconstructing this country. We can be history-makers, establishing the presence of God.”

Acapulco 2007

Again this summer we are leading a Mexican student summer project to Acapulco. We have been praying about this project for months as it seemed as though it might be cancelled due to lack of students. However, as the deadline approached God answered our prayers for students. At the National Conference we saw many students apply. Now we have 27 students going to Acapulco for two weeks to be trained in evangelism and discipleship! We’ll be sharing our faith in many different ways, showing the Jesus film, having evangelistic concerts in the main square, and working with local students to see movements of evangelism and discipleship planted in Acapulco.

Please continue to pray for the students that are raising support to go on this project. Pray also for us as we continue to prepare for the project. Pray that God would already be preparing Acapulco for the project. And pray that God would keep us all safe while in Acapulco as it is a very dangerous city due to drug problems.
