- God saved Michael out of a radical muslim upbringing in Tanzania, Shinga out of the genocide in Rwanda, and James out of the darkness of ancestral worship in Uganda, calling them to impact youth across their nations.
- By September, our Kenyan leaders will launch six training groups where they will each mentor 12, who will each have their own 12, who will each have 2-3 students they are discipling. With each group impacting as many as 588 leaders, we have the potential to touch 3528 leaders in Kenya alone with our training over the next year.
- Billy and Darleen Hone move to Kenya the end of this year. Our plan is to launch our residential training center for young leaders January 2012. Word Of Life Camp has a gorgeous, but underutilized, facility 10 miles outside of Nairobi. They have agreed to partner with us, allowing us to sign an inexpensive lease on a large house on their property that will house the Hone's as well as the young leaders in our training program (and possibly mission teams as well.)

Thanks for helping us impact East Africa! -Doug & Jennifer
