God's not on vacation

Of course He's not!

Here are some of the ways He's been working...

6 students in New York City (NYC) have come to faith this summer through our summer mission.

God has clarified His call for Charlie and Abby Shaller to move to NYC to help lead the team in Manhattan.

Students, faculty, and Cru staff have been stepping out in faith sharing the gospel with people all over the world on Summer Mission trips.

A special need... for a car.

My car needs have changed since I bought my Mazda upon my return from France in '08. And I have the opportunity to help a "year out of college" friend by selling him my car. With the combination of these two things I am buying a new car this month. My perspective has always been to have a car that is safe for all the traveling I do alone and one that enables me to accomplish what I need to. In these days that includes having blue tooth phone, comfortable for other adults as we travel to our staff teams, and space big enough to take my yard waste to the town compost.

Would you please consider helping with a special gift payable to Cru to help with this need? As with all of your Cru donations it is tax deductible. You can give online: <https://give.cru.org/0262757> or send a check payable to Cru in the enclosed envelope. Thanks for considering helping. God has always provided for me and I trust He will now as well.

On a personal note, it was this time last year when Mom was with me for the month before she passed away on the 21st. I have many fond memories from our time together and again am so grateful to God for giving me that special time with her. I am still grieving her loss; so as you think of me, please pray. Thank you.

Grateful for you!

A handwritten signature in blue ink, appearing to read "Liz".
