Earlier this month we had 120 students and interns from northeast campuses attend a Preview Weekend. Reading some of their comments will give you a feel for what the weekend was about and how God used it in their lives.

- Being able to spend time to think, pray and process my life with the help of friends and staff of Cru. - Paul, NYU
- Taking the time to put aside what I think God wants for my life and seeking Him for what He wants for my life. - Shellae, RIT
- Taking the time to identify the things in my life that are holding me back from being fully surrendered to Christ. - Daniel, UMaine
- Realizing that the year after graduation will be very strategic both for me and the impact that God can have through me. - Carolina, RIT
- Opportunity to pray about joining Cru. - Adam, Yale
- I love the non-threatening, non-pressuring environment. This whole weekend really encouraged me to press into God's will for me. - Adrienne, Boston University
- I was encouraged with the opportunity to find where I fit-in with Cru and the role that God is calling me to. - Eniola, BU
- I was challenged to completely surrender to Christ without worrying about being perfect. God's grace was real to me. - Rocio, Brandeis
- I am praying about joining with Cru after graduation. Thank you for this weekend. - Loyal, Harvard University
- I was challenged by how our staff really step out in faith each day to minister to our campus. - William, Cornell
- I appreciated the focus on life lived with Jesus and not just on joining Cru. - Geoffrey, Cornell
- I appreciate that our concerns, questions, and time were wonderfully considered and integrated into the conference. - Patricia, Wentworth Inst. of Technology
- I was reminded of my childhood passion for missions - Ruth, Wellesley

Please pray to the Lord of the Harvest that He would send workers out into His field (Matt. 9:36-38) - including many to labor with us. Thank you for your partnership with me. Together we are helping students know the love and grace of Jesus.

Because God answers prayer,
