

APRIL 22, 2021

Rachel* had been raised in the church; however after graduating high school she wasn't sure whether she really believed what she claimed to. In spite of her uncertainty she was open to connecting with a few students in Cru on her campus at the University of Maine.

Over time God used those students to help her become more and more aware of her absolute need for Christ. Now she is in a totally different place with God. She firmly believes in Jesus and is growing in her relationship with Him. She has an enthusiasm and zeal that were absent before. Her life is being transformed. The change is so noticeable people from her home church have commented on it.

Please pray that Rachel will continue to grow in her walk with the Lord.

*not her real name

What a great example of God going out to find one lost sheep. You and I have the privilege of being His means of finding them.

Because God is rich in mercy,

A few things I'd appreciate your prayers for:

April 29 I will meet with the team in Maine (in person! This will be 2 weeks after getting my 2nd vaccine.) Please pray for a good connection with the people and that it will be profitable time of evaluation and planning.

May 4-6 Will be the end of school year leadership connection appointments with the team leaders in their coaching groups. I'm still finalizing the details for the content and would appreciate your prayers for that.

May 11-14 I'm going away for a few days for prayer and planning. Please pray I meaningfully engage with God, hear from Him, and set a good course looking toward the coming school year.

Thank you for your prayers.

I love having an outdoor workspace.
