CRU MISSIONARIES *AT* BUFFALO | Jan 2017

Two days after Christmas, 24 Buffalo students from 6 different WNY campuses carpoled down to join 1300 other Cru students for the East Coast Winter Conference. There was amazing worship, time in the Word, seminars, a day of outreach, and a rocking New Year Eve 80's themed dance party. At the end of the week all the students had stories about how God had moved in their lives. Many of the students made big decisions for the Lord.

**Two of the students we brought ended up receiving Christ the last night of the conference!!!**

Kevin Me & Ashley(intern)

**Kevin** the Cross Country runner from Daemen college who we had you pray for in last December's newsletter finally received Christ!! Kevin was struggling the entire conference with if he could truly trust this "Christian thing". And yet he so badly wanted to believe. So, late into the New Year Eve after all the festivities, Kevin and another student talked, but mostly they prayed about Kevin's unbelief. Kevin says, "I was having such a hard time believing so we would just pray more", then sometime around 4 am Jan 1st he says "everything changed, I just started to believe, felt totally different, and I had more peace."

Theresa

**Theresa** is a social work major at Buffalo State and has been hanging around Cru for awhile now, but just couldn't say she was a believer yet. She decided to attend Winter Conference and was deeply impacted by the outreach event on New Year Eve day. The Buffalo team helped maintain the grounds for a Christian house that restores female sex traffic survivors. We heard the horrors these girls went through before coming to the house and our hearts were broken. I have never seen college students work so hard, without complaining, worrying about their clothes, or personal comfort. We were

even able to help throw a birthday party for one of the girl's quinceanera. It was truly a once in a lifetime experience. Theresa was so impacted by what was happening at the house that she wants to go back and intern for a year. God was moving in her heart. That night during worship she took one of our staff girls off to the side and said "I am done pretending, I want to accept Christ."

Clearing the way for a road at the Samaritan Women Ministry

We are in awe of all God did!! Would you continue to keep these students in prayer especially with all the pressures they will be facing as they go back to campus.

## Prayer Requests as we start Spring Semester

1. Cru Promotion tables on all the campuses - we always have lots interested new students, even 2nd semester.
2. Students would take on more leadership, discipleship, follow up
3. Students would reach out to their non-Christian friends, classmates, roommates more
4. Students would grow deeper with their relationship with God

Thank you for your faithful prayers and support. Your partnership makes the changed lives of Kevin and Theresa possible.

"We always thank God for all of you, mentioning you in our prayers."  
1 Thessalonians 1:2
