CRU MISSIONARIES at BUFFALO | May 2021

In a year like we just had it could be easy to think "God, where are you?"

Campuses are emptier than usual, social gatherings are limited and it has been so challenging to meet new students. It's easier than ever to doubt God's ability to transform lives. On the surface it seems like nothing has happened. **But things aren't always as they seem.**

The picture above is evidence to that. A few weeks back we had a meeting with all of our student leaders across Buffalo and asked them to write on Post-it notes what they saw God do in their lives and on campus this pandemic season on campus. This year has been tough, but as you can see nothing can stop our God.

As we head into the summer, would you pray for us?

Pray this summer break students would grow closer to Jesus. We will be launching Summer Cru in June. Also, despite Covid over 10 students from Buffalo are going on summer missions all over the USA and world.

Also, it is never too early to pray for the incoming freshman class! We believe students will be coming into college hurting more than ever before, but also more spiritually interested than ever before.

Thank you so much for your prayer and partnership in reaching students with the gospel!

A month ago Jenn had a serious foot surgery that she has needed for awhile now. She is up and rolling around the house, and hopes to be walking normal in 2 months. We would love your prayers for her healing, and our patience as everything is just a little slower, and one driver for lots of kid activities.

Right before Easter we hosted a city wide virtual Q&A panel. Students could ask Christian scholars any questions they had about the Bible, Christianity, Jesus, faith, etc. Great questions were asked and clarity was brought to various topics.

Highlights from Buffalo State from the Q&A night...

- Hannah who is one of our new Buffalo State Cru students, brought her friend Maria to the Q&A event. After that night Maria has been attending Cru bible study and church with Hannah!
- Katie the new believer we talked about in our last newsletter, watched the Q&A event online with her mom. They stayed up talking until 2 am talking about the event.

We just wrapped up the year with a fun event called "Night at the Oscars". With this crazy year all our campuses were together virtually in 4 different locations voting on each campus homemade videos.
