

The Lamb Family

Cru Missionaries at Buffalo Feb 2023

“A blizzard... One in a century”

is what everyone was saying. And it was! We were snowed into our house for 5 days! Although one of the worst blizzards in Buffalo tried to keep our staff and students from making to Winter Conference, we are able to get plowed out just in time to join 800 other students from across the North East in Baltimore for Cru’s annual Winter Conference. Students were challenged to lay down their desires and submit their lives to serving God's kingdom in their homes, campuses, careers and beyond. Below are a few of the results and what the students had to say:

Buffalo Students Ending 2022 @ Winter Conference

***Haley (Daemen University Junior)** has decided to commit her Summer to going on mission and push back her internship until 2024.*

***Evangeline, sophomore at Daemen** - There is no better way to spend the last week of 2022 into 2023 than @winterconf ! It was such an amazing and much needed time of spiritual growth, peace, and rest. Not only did I get to spend quality time with the Lord, I also got to meet so many new amazing people from so many different colleges! Just seeing Gods love though every single one of them made our interactions even*

more special! But what was even more special was getting to know all of my Cru Buff friends! Every single one of them made the trip so much more meaningful! This was definitely a week to remember, can't wait to see what Gods going to do this next semester within Cru Buffalo.

Jordan and I @ UB after talking to Chris about Jesus

Would you pray for more men to come to our cru movements and to step up with leadership.

The spring semester has started back up!!

The Cru Buffalo staff team has been busy doing promotions letting students know they are welcome to check Cru out. We are getting all our meetings going on our Buffalo campuses. We have also been sharing on campus talking to students about what they believe and letting them know about Jesus. Jordan (another staff guy) and I recently talked to Chris a Sophomore at UB. He said, "My grandparents used to talk about the Bible but my dad seemed to not have much time for Christianity" Chris then explained that he wants to read the Bible, but "Probably after I finish college." Jordan and I gave Chris our contact and offered to help him get into God's Word now and not to wait any longer.
