

The Best of SLO Crusade 2009-2010

The school year for Cal Poly Slo and Cuesta College just finished and we took a moment to see all that God has done. Would you thank God with us for all He has done, none of which could of happened without your prayer and financial help:

102 Bible Studies

204 Bible Study leaders

945 Students going to the Bible Studies

73 Students are going on Crusade Summer Projects

5 thriving Ministries: Cal Poly Crusade, Cuesta Community College Crusade, Epic (Asian American ministry), Athletes in Action, and Greek Students.

It was so hard to say good-bye... With the end of the school came the end of our senior bible studies. Jenn has been with her girls for four years and Kevin for five years. Most of my guys are going into the work world, some still have another year, and one is currently an intern with us at SLO Crusade. Most all of Jenn's bible study is graduating this year. A lot of her girls are giving a year or more of their lives to reach lost college students. It has been so rewarding leading these men and women these past years and watching them grow stronger in their relationships with God.

Heather: interning in San Diego

Bethany: interning with SLO Crusade

Emily: interning with SLO Cru

Laura: Interning in East Asia

Franckie: leading South Africa team

Kevin's study celebrating with a chicken wing eating contest. Winner ate 62 wings!

Family Update

Jenn and I are adjusting to having two kids. Abbey loves her new brother and wants to hold and play with him at all times even during his naps. David is now 6 weeks old and loves to eat, sleep, and cry when he isn't doing either of those. He has shot from the 50 percentile in weight of the nations newborns to the 90th percentile, so he is super healthy and now has a double chin.
