

The Lamb Family

CRU MISSIONARIES at BUFFALO | Feb 2022

I (Kevin) write this letter to you as I look out my window at a near blizzard going on outside. The whole family is wondering if tomorrow will be a “snow day” for the kids. Sometimes I wonder why we left CA? But, actually the snow helps me remember this is exactly why I left CA. The snow along with (according to Barna research group) Buffalo being one of the most unchurched city’s in America. We knowing how much these Buffalo students need Jesus. It has been so amazing to have God use us these past 10.5 years here in NY. But we never could have lasted and thrived here without your prayers and support.

Buffalo Students at Winter Conference

Winter Conference

It was great to have our annual Winter Conference back in person again compared to last year where we had to do it virtually. We took 33 students from 5 different Buffalo Campuses to join around 900 others in Baltimore, MD from Dec 28th-Jan 1. At Winter Conference, students were challenged by different speakers to really surrender everything to the Lord and think about next steps in their walk with the Jesus. It’s also just a great time for community.

But don’t take our word for it, here is what some students had to say about their experience:

“Cru Winter Conference is a time of laughter, community, and growing in Jesus. I am thankful for every moment there and for Jesus opening my heart.” - Brooke, sophomore at Buffalo State

“Winter Conference you have introduced me to a whole new side of God that I love. You have also allowed me to grow closer with my friends and meet so many new ones! I am beyond thankful for this community I am a part of.” - Paige, sophomore at Niagara University

PRAISES + PRAYERS

1. Please pray that the 33 students who went to Winter Conference would be able to take back what they learned to their campuses and share with their classmates.
2. Pray for us and our staff team as we start the spring semester. We are doing lots of promotions on campus to get the word out about Cru.
