Ask Mom Outreach

Misty w/ Fred, Me w/ Davey & Molly

Three weeks ago the staff moms stepped out in faith to start a weekly outreach on campus called Ask Mom. In a nutshell **we give away cookies, advice about love, laundry and life and prayer.** Every Tuesday we have our table out with cookies from 11 am to noon. This is definitely not a quick, let me share the Gospel with you outreach. We hope to build relationships and use our unique role as a mom to talk about God through whatever is going on with that student's life. We have already see students opening up. We asked this one girl if she missed her mom and she said yes but I'm not sure that she misses me. Another girl opened up to me about the pain from her parents' divorce, she said, "I don't usually talk about this". And this week a guy said he wanted to learn how to garden so Gretchen invited him over to teach him. It is definitely a long term outreach so would you join us in praying that God would use this to bring Jesus to college students.

Prayer Requests...

- For Kevin as he travels to East Asia after Thanksgiving to shepherd and encourage our team of students who are serving there for the year.
- There have been a lot of genuine decisions for Christ this quarter; please pray these students would grow in their faith and develop community.
- Pray for our team as several of our interns are experiencing depression.

Fall Retreat

Thank you for praying for my Women's time talk at Fall Retreat. This was definitely a step of faith for me to speak in front of 250 women. I had butterflies in my stomach for a week. But God had placed it on my heart to be vulnerable about my life and **the struggle of comparing ourselves to others and how the Bible calls that envy.** I spoke from John 21 where Peter compares himself to John but Jesus rebukes him and calls him to "Follow me". It's hard to talk about the impact without sounding conceited but I think God truly spoke through me to the hearts of the women there. And the best thing is that God continues to use the truths that I learned in my preparation in my own life.

The harvest...

Two weeks ago Kevin took his disciple Miles (on the left) to share their faith on Cuesta's campus. They started talking to Mason (on the right). Their conversation was rushed but Mason was ready to hear about the Gospel and **He prayed to receive Christ right there on campus!!** (Kevin was sneaky and captured the moment with his phone's camera.) Miles realized they are in the same weightlifting class so now they hang out every Friday. After the first hang out Miles called Kevin to say, "Mason is definitely a Christian." Every week they are going through foundational truths of following Jesus. They have talked about the assurance of salvation & grace, forgiveness, and the ministry of the Holy Spirit. Please pray for Mason!!
