

Prayer for Fall Kickoff

We feel we are better prepared than ever to start the new school year at Cal Poly SLO but we are in need of prayer for God to move.

Our Team: We have the biggest staff team ever — 10 full time staff and 10 interns, which is blessing but tricky figuring out how to train and place everyone. Also, many of our interns are still finishing up their support raising which keeps them off campus until they are finished.

Cuesta Community College Crusade - started 3 weeks ago and they have had 30 more people than last year coming to their weekly meetings! The guys have been having a huge Monday bible study and are talking about splitting it into 2 studies. Last year we had one guys and girls study this year we plan to have 3 guys studies and 2 girls studies.

Fri Sept. 18th - Slo Bound

(Biggest most effective outreach of the year)

We will be giving out about 2600 Freshmen Survival Kits (FSK's), which is a laundry bag that have a New Testament, an aluminum water bottle, cool gospel presentation by Frances Chan DVD, and a book "Jesus without Religion". To get this they have to fill out a spiritual interest form, and their contact info which we use to start all our Bible studies and do ministry in the dorm the rest of the year.

Cuesta students handing out F.S.K.'s

Sun Sept 20th - Bible Study Leaders go in the dorms

Over 100 freshman bible study leaders will be getting together, to pray and get trained on how to follow up the contacts cards from Friday's SLO Bound. From there they will go in the dorms and talk to anyone who seemed somewhat interested in a bible study or spiritual things.

Sun Sept. 20th Night - Slack Street Party

Sunday night, parents are gone for the first time in most students' lives, all the school required meetings are done and classes don't start for another day. So, students want to let loose and go to (for many) their first college party. We want to offer an alternative, so will have a party right across the street from Cal Poly on Slack Street. We hope to show that you don't have to get drunk to have fun.

Would you join us in praying for the students at Cal Poly and Cuesta Community College. We believe these first 5 weeks are the most significant in a young persons life because what they get involved with and what they start believing can usually determine their next 5 years at college, and then their 50 years after that.
