CRU MISSIONARIES AT BUFFALO | Oct 2014

In our weakness He is Strong

We say it every year but the first few months of school is always the busiest time of the year. There are days of tabling doing promotion and taking spiritual interest surveys, students leadership meetings, numerous social events, all on multiple campuses in the Buffalo area. But the thing we spend the most amount of time on happens to be what we love most about our job and that is meeting up with every new student and every student interested in spiritual things. We love hearing their stories and talking about their beliefs and sharing the Good News with them. So you could imagine that having a new baby at the start of all this has been a challenge. On top of the sleep deprivation and the wildness of 4 young kids, both our intern and key student leader weren't here this Fall. They have joined staff (praise God!) but that means they are off campus until their support is raised. But in the midst of our weakness and lack of labor resources we are seeing God provide and we are seeing Him move. Students on all our campuses are taking on more leadership and owning the mission and vision. We are seeing God answer our prayer that freshmen would get involved on each campus. The weekly meeting and community groups are growing. Buffalo State's weekly meeting has grown larger with each week! And through the follow-up appointments, we have seen 5 students put their faith in Jesus just in the last few weeks!! The less we have had to offer, the more God is showing up.

Fall Getaway with 51 Buffalo students!

Prayer Requests

- Pray as we adjust to a family of 6. Madeline may have colic so it's been challenging at times. We want to care for all our kids well, even in the busy newborn stage.
- Pray for the many spiritually open students who are coming.
- Pray for these 5 new believers as they grow in their faith.
- Pray for our upcoming holiday outreaches: Pumpkin Carving in the Dorms and ThanksGathering Event.

Our beautiful Madeline Joy Lamb was born on August 30th at 4:15pm. She was 7.8 lbs and she was 2 weeks early. We are thankful that both Jenn and Madeline are healthy; in fact they were out of the hospital 25 hours after the birth. And the answer to the question everyone asks, yes this will be our last kid unless God works a miracle.
