Summer Cru in Buffalo

Summer Cru

This summer I ran summer Cru in Buffalo. Students from all 4 Buffalo campuses come to together for a weekly meeting and fun events through out the summer. I love seeing students from other campuses get to know each other. We even had graduating high school students attend and excited about Cru for their freshman year.

I had lots of great conversations, one of my favorites was with soon to be UB Sophomore Nick Mann. He pulled me aside after a meeting one night distressed coming to the realization that the

church he grew up in didn't actually believe the true Gospel that Jesus is the only way to be saved. I loved his heart that he had already met with some of the leaders in his church to try to change their minds and show them biblical truth. Unfortunately, I told him instead of changing a whole church, his best bet was

finding a church that aligned with the Bible. He soon found a new biblical church where he can also fellowship with other Cru students!

Evangeline's Cru Summer Mission Experience

This is Evangeline, she is going to be a senior at Daemen University in Buffalo. She just spent the past two months alongside 29 other students from all across the east coast serving the Lord in Ocean City, MD on a Cru summer mission. There is something so incredible about being a part of a community that desires to know Jesus deeper and engage in the mission He's called us on. **Here's how Evangeline saw God move in her life this summer:** *"Before coming on mission, I was going through a season where I knew I had to pray and read my bible, but I just had no desire to. It was more of a routine rather than a deep desire. But since coming on Summer Mission, God has put on my heart the need to be in the Word every day. I love how God has been so present during my times of coming to Him, all because I let Him in. Letting Jesus in to all aspects of my life*

Evangeline student at Daemen College

has been so important to me and has grown me significantly. The Lord has also taught me to be bold in my faith, and to turn any conversation into a spiritual conversation....I am excited to see how the Lord will be working in my heart for the rest of the summer!"

As the staff passed off leadership to students for the second half of the summer, Evangeline was selected as the Student Director to lead and serve the mission in Ocean City! It's so clear how God has been working in her heart. I can only imagine how He will continue to use her to reach more students with the gospel as she returns home to Buffalo!
