CRU MISSIONARIES *at* BUFFALO | Sept 2019

We are changing campuses this year!

Jenn and I have been leading the movement at the University at Buffalo (UB) together the last 8 years, and I have also been in charge of Daemen College the last 6 years. We will be leaving UB to 2 staff that are Buffalo Cru graduates and that we have been developing the last couple years.

Jenn will be taking over for Kevin leading at Daemen College, which makes more sense since it has a student population that is 75% women.

Kevin will be taking over at Buffalo State College for a staff guy named John. John and his wife were challenged to go to a new location at the University of Massachusetts, because there is barely any college Christian ministry going on there. Honestly, this is super exciting because one of our dreams for moving to Buffalo from California was that Buffalo would be a missionary

sending ground to the North East and to the World. It is so cool to see that happening.

Buffalo State will be exciting because it is the most diverse student body we have ever worked with. Also, in the last year the Buff State Cru movement has shrunk down to about 15 students involved. We are excited for new challenges and to see what God will do. Please pray with us as we start the new school year that students lives would be changed through the power of the Gospel.

So much can be said about our bi-annual staff conference this summer in Fort Collins CO. Just try to imagine being in a basketball arena full of 5000 other people that are all missionaries that are also trying to rescue as many people as possible in this generation, while listening to world class speakers and teachers. There was so much content that was encouraging, challenging, and that I know will help us back on campus this year. It was like drinking from a fire hose.

Probably the most talked about session among the staff the staff was from Heather Holleman. She wrote a book called Seated in Christ. We highly encourage you to listen to it at <https://bit.ly/2jZPPzw> it is 54 mins into that afternoon session. While you are at that website you can watch and listen to 100's of hours of other treasures that were available to us during that week.

## Family fun fact

For various reasons we drove to the conference from CO from NY, a little over 1500 miles in less than 24 hours.

On the way back we took about a week and had an amazing vacation with the kids and hit some national parks. We camped at Yellowstone and drove through the Rocky Mtns, Teton Mtns., Mt. Rushmore, and the Badlands. Jenn jokes that I was just trying to get my money's worth out of the National Parks Pass we bought.
