Movements Everywhere

As staff workers with Campus Crusade for Christ, we are often charged with reaching every student and starting movements everywhere so that everyone knows someone who truly follows Christ. To me, that always seems a pretty daunting task. There are so many schools, and so many students that it just seems overwhelming….until we actually get out there and try something and realize that God is on our side and it's his heart and vision as well.

Last month Trina and I ventured north of Los Angeles to Cal State Northridge. We went with about ten other staff and students from different schools to try to start a Destino movement. Northridge has a very high Latino population and seemed like a great place to start Destino. We just went around talking to students for a day saying we were looking for students with a passion to follow God and want to make a difference on campus and asking if they know anyone like that.

At the end of the day, we had found several students that were interested including a girl we had just met at a birthday party the week before. God wants to move on the campus of Cal State Northridge. Trina even saw one young man, Chris, come to Christ. It's days like this that make the final vision of Campus Crusade for Christ a little easier to see. If we continue to step out in faith, he is faithful to meet us there. Please pray for the campus of Cal State Northridge and for Chris, our new brother in Christ.

Spring Break!!!

These words we often associate with a week of freedom, and unfortunately nowadays, drunkenness and debauchery. There's another side of spring break, however, that rarely makes the news. It's not as enticing to viewers, there's not as much exposed skin, but it is just as exciting for those that are paying attention. While many college students choose the drunkenness, there are those that go the other direction.

This Spring Break, we sent over 30 students on 3 different trips to either Australia, the UK, or New Orleans, where they will share the Gospel of Christ with those they encounter. Two of these trips are being led by students who just had a heart to set them up.

The UK and Australia teams will be going onto different campuses and doing what we did at Cal State Northridge, sharing the gospel and looking for those that want to make a difference for God. The New Orleans team will be working with a church and serving in the community while also sharing their faith with those they encounter. Please pray for these trips and the students on them, that God would be glorified in whatever they do.
