In Transition

This semester, we've been going through a book called "In Transition" with the seniors we disciple. The book is full of workshops, articles, and studies to help these seniors assess and prepare for the changes to come as they graduate and move into the next phase of life. Change can be difficult and we often don't know what to expect. Luckily, we can learn from those that have gone before as we trust God with the future. We want to send our graduates out into the world well-equipped with a plan and commitment to continue to pursue God and impact others around them with the gospel.

In the process of helping these students think through major life changes like moving, new jobs, and even marriage for 2 of them, God has brought us into a similar place of transition. About a month ago, Paul was asked by the national Destino director to consider taking over leadership of the LA Destino team next year. It has been a tough process, with lots of mixed feelings and unknowns factoring in, but we recently decided to say yes to the position. While we are very sad to say goodbye to USC, we feel that God has been preparing us for this unique opportunity to reach out to the 225,000 Latino students in the Los Angeles area. It's a huge step of faith, for sure, and a great need.

This change likely means moving (though still in the LA area) and having a whole new team and myriad campuses to coach while launching movements of students. There will be a huge learning curve, but we're trusting God. Plus, we have an entire summer full of travel and ministry on project in San Diego ahead of us. For now, we are trying to finish well at USC and enjoy the time we have left with our beloved students here...before we "graduate" along with our seniors and are sent off into a whole new world.

Thanks for being in it with us!
