Tropical tribulation as I would put it here in the Island of Mindanao. "Sendong" tropical storm comes ripping through Cagayan De Oro city for the first time. Damaging and devastating many, over fifteen hundred dead or missing up until now as I write this report. What an opportunity to reach out in this tragedy of lives but through this, lives are being changed for his glory, for the Kingdom. Our Compassion-Net ministries had a chance to hand out

some reliefs to students and help out as best as we could with all the other relief programs coming in. Of course we

are limited in our production but did what we could do and thank you, dear supporters, for seeing the need. Your prayers are manifested.

Ministry expands with over 11 classes in our high school outreach. Traveling to the mountains has been exciting and challenging for me with an opportunity for evangelistic film showings with over two hundred kids in attendance and getting to teach how to rightly divide the word of truth, some of these people never heard of the word Dispensationalism. This last month I had the chance to go to a Conference, and just get some good old gospel feeding. You need that at times. It's good to meet other families in the field of souls.

My dearest backbone of the ministry gets the opportunity to give her testimony to her home church on the anniversary from the point of salvation to her ministry now for the Lord. Well done, Honey.

Our Landfill outreach and the reception of the soil of the heart to trust in the bible as their final authority and not to be sidetracked from the influence of alcohol and Rugby (getting high on glue). To have a small church building of wood and metal (we need about \$500 to start it) that we may have a meeting place.

A downpayment for a vehicle for the family and ministry - current downpayment is 2500.00. It is run differently here. What you would pay for a car in the U.S is half what it is here brand new and 2nd hand here is not good.

My Grandfather is 93 years old now and had 4 blood transfusions because of lose of blood. He is back to therapy now at home. Yet at 93 anything can happen. This means I would need to return at anytime, brethren, but this time only me and possibly my eldest daughter would go, for about 2 months to take care of arrangements. Pray for his longevity at least until our projected Furlough in 3/2013.
