June 2021

"And they said, Believe on the Lord Jesus Christ, and thou shalt be saved, and thy house."
Acts 16:31

Dear family and friends,

This is Marco Antônio; he is nine years old and is one of the kids that attend Haven of Hope. Back in March, when he started coming, he had difficulties in math, reading and would be very shy. At the beginning of the year, he came along with his mother during registration and said he did not want after-school classes. In four months, all of this has changed! The teachers have seen significant development in his reading and math capabilities and also making many friends.

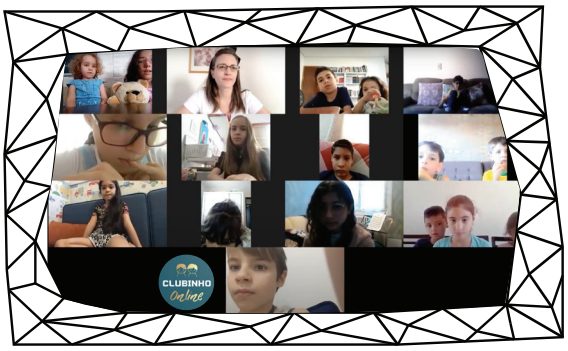

The best of all is that he learned and understood that he is a sinner and needed Jesus and decided to give his life to the Lord! Even his parents questioned what he has been doing because he now gets up on his own and gets ready to come to the after-school classes!

Some weeks back, his mother baked snacks and told him to give them to the teachers and his friends as a gesture of thankfulness for all the good changes in his life!

We thank the Lord for these changes in the kid's lives!

In July, if God allows, Carmen will be doing a five-day VBS online for the kids attending the Kids Club meetings.

In Brazil, Covid-19 is still a significant issue; vaccination has been rolling out very slowly. This last month two young parents in our local church lost their lives to the pandemic.

We know that the Lord wants us out in the field, and we have been taking all the possible precautions to be safe and keep healthy.

In Christ,

Andrew, Carmen, Rebeka, Timotheo and Deborah Pereira
