## Another year...another life changing year!

Yes, it's fall again and the students are pouring onto the campus of Ball State University. This year the highest number of freshmen ever will be enrolled, 3,980 freshmen! Our goal is to share the gospel of Jesus which each and every one of them.

But, students are changing. The postmodern mindset has changed the way students think and make decisions. We are excited to try a new way of connecting with students that will enable us to share the gospel with them in a way that relates to them and speaks their language. It's called the **Soularium**.

Just as sunlight illuminates a solarium, Soularium opens a window to the soul.

We live in a visual culture. Because images connect deeply with our emotions and experiences they also enable us to engage students in spiritual conversation on a deep level. In an easily transportable packet, Soularium provides 50 4x6 original photographic images and 5 simple exploring questions that allow us to engage in one-on-one spiritual conversations with non-believers. Questions explore students' desires for their life and spiritual journey and provide many bridges to dialogue about Jesus.

**Our family is excited about another year of ministry at BSU!** This year Heather will be leading a group of upperclassman girls in a study of 1 John. She is thrilled about the opportunity to pour into the lives of these women. Some of my responsibilities have changed. I will be spending more time praying, thinking, brainstorming and implementing strategies and ideas to help bolster the CRU movement to engage their non-believing friends with the gospel. One on one evangelism can be scary and so I want to help students move past those fears and be able to share the gospel with boldness and clarity.

Thank you so much for partnering with our family to bring the good news of Jesus Christ to the world.
