

November 27, 2006

Dear Partner,

*We've been eager to share with you many of the things that have happened this fall. From the first week of class until now, students and staff on our team have been finding ways to engage others on campus with the gospel. In the process, many have understood the good news of Jesus and for the first time have responded in faith. **In fact, 30 Madison students have already indicated decisions for Christ through personal conversations this fall.***

*One of those students is Ben. Two weeks ago, Tim, a CCC intern, and I visited this freshman at his room. After we spent an hour talking together, he bowed his head and prayed to receive Christ. He then made a point to really thank us for taking the time to answer his questions and help him understand what the Bible says about salvation. Although he grew up somewhat connected to a church, he said no one ever took the time to explain what Jesus did until he got to college. I was pleased to hear that even before we met him, a Campus Crusade student living in his dorm had started talking with him about God.*

*I trust this letter will help you celebrate some of the ways the Lord is working through this ministry and in our lives (don't miss the second page). We thank you again for playing such a vital role. We love you!*

*Scott & Bonnie Roe*

## 9/11 Survivor Outreach

Sujo John was on the 81st floor of Tower 1 when a plane flew into it on Sept 11, 2001. His wife (pregnant with their first child) worked on the 71st floor of Tower 2. We invited Sujo to UW-Whitewater, UW-Madison, and Herzing College to share his compelling story of his survival and his de-

pendence on Christ.

About 1,400 people were captivated by his story. He was able to talk naturally and directly about a relationship with God. **At Whitewater, 47 students indicated a first-time decision to trust Christ. At Madison, 17 stu-**

**dents did.**

This was our first event at Herzing College, a small technical institute which apparently has never had a ministry outreach on it. There were about 35 people who attended Sujo John's presentation. From that we found some key people who seem quite motivated to partner with our one student leader to reach out to this college.

## Fall Getaway

A couple hundred students joined us for our annual fall retreat. Our main speaker talked about the 40 things that happen to you the moment you become a Christian. It was great positional truth (especially for new believers), good training, and such fun.

## CBS Evening News with Katie Couric films UW Campus Crusade

---

A few weeks ago, a CBS film crew came to the **University of Wisconsin-Madison** to gather a story for the CBS national news. The focus of the story is the increased spiritual interest of college students and their involvement with Christian groups.

CBS shot our weekly meeting and a freshmen women's Bible study in one of the dorms. Two Campus Crusade students were interviewed about how they left the party scene when their lives were changed by Jesus. They are a couple of student leaders in our ministry.

The CBS crew filmed hours of footage, but the whole story will only be

two minutes long. Yet, this is a long time on network news, and it could be such a powerful testimony.

Please pray the story will air soon in a form honoring to God.

I sent some of you an email about this. If you didn't receive that and would like to receive an advance notice of when this will air, please send me an email

at [scott.roe@uscm.org](mailto:scott.roe@uscm.org) saying so. If I hear something, I'll pass it along.

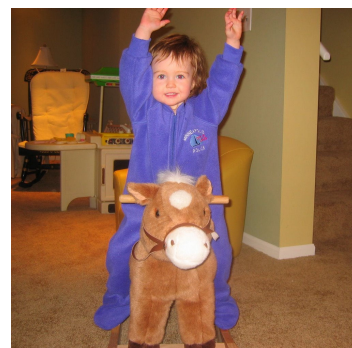

CBS filming Scott at our weekly meeting

## We're Expecting Again!!

---

We're super thrilled that Bonnie is carrying our second child. We continually thank God for Julia. Since it took so long to conceive her, we're really excited that this second child has come so soon. Julia will be almost 26 months next June 11 on the due date.

## Prayer Requests

---

- ◆ Please pray that every new believer would be connected to our ministry and/or another local body which would help them become grounded in God's truth and community.
- ◆ Pray for the healthy development of our new child
- ◆ Pray that we would manage ministry, marriage, and life well. We'd like Bonnie's morning sickness (which is much better than last time) to depart.
- ◆ Pray for students as they decide to attend *Urbana*, *Passion*, *Impact*, or *TCX*, our annual CCC regional Christmas conference. Each conference is incredible in its own way for helping shape students' lives.
- ◆ Pray for the many women's Christmas gatherings hosted by students this month. They give us a special opportunity to use Christmas to convey the gospel in a smaller, social setting on and off campus.
- ◆ Pray that we'd find the right people to equip or partner with to help launch a "Destino ministry" to Latino students and an "Epic ministry" to Asian-American students. We're not sure what to do, but we see the need and potential for these outreaches here.
