

A Two Year Journey

Williams Word | January 2025

Our staff team recently embarked on a two year journey of learning how to build a culture of discipleship among students. Along with a cohort of AIA staff from around the country, we are trusting God to create Christ-centered movements on campus through spiritual multiplication.

Every six months we gather in person for a three day “immersion” on how to be and make disciples in the way of Jesus. Matt traveled out to Los Angeles on January 6-8 for the first “Learning Community” and was greatly encouraged while there. **Please pray that our investment of time and energy in this cohort would enrich our lives and ministry.**

Matt happened to be in LA when the wildfires broke out and our host location in Santa Monica was only three miles away from the starting point. An AIA staff couple serving at UCLA is deeply impacted by all that's currently happening. Please pray for God's grace to cover and sustain the Motorin family in this difficult time. They are personally safe but carrying a lot of weight as they care for others.

Semester Six

We recently gathered our leadership team to prepare for the spring semester. It was a great time of vision for our students to live on mission with friends and teammates. We challenged them to pick six names who they want to share the gospel with or disciple this semester. They are excited and motivated to trust God for heart change! **Pray for the Holy Spirit to go before us and give boldness in proclaiming God's grace through Christ.**

We appreciate your partnership in the gospel and couldn't do this missionary work without you. We look forward to 2025 with anticipation for the hand of God to work in and through us!
