## Mobilizing the Next Generation

November can be a difficult time in the rhythm of a campus ministry. Students are tired from the semester; the weather is turning south; the entire week of Thanksgiving is shot. These and other factors make it hard to keep students engaged. Every year in November we trust God to use our efforts toward one focus: mobilizing students to "GO" on a summer mission opportunity with Athletes in Action!

*The mission of Athletes in Action globally is to build spiritual movements everywhere through the platform of sport so that everyone knows someone who truly follows Jesus. Stop and take a minute to draw a mental picture. What would our world be like if every athlete had a teammate who loved others like Jesus does?*

The vision I see is a day when there are Christ-followers on every team, in every sport, in every nation. That vision is what compels us to stay engaged with the mission during a hard month.

As November ends, the work of mobilizing continues. Would you pray the following with us:

- Holy Spirit to grow in our student's hearts the desire to make disciples for a lifetime!
- Our staff team to have wisdom in personally challenging student-athletes to GO with AIA this summer
- That students would be surrendered to the Lord about their summer regardless of what they do
- That our upcoming leaders at Butler and U of Indianapolis would attend Ultimate Training Camp with us

## Our Summer Assignment

"The heart behind the Ultimate Training Camp (UTC) is to be an accelerator to discipleship. We believe if we can teach the athlete what the gospel looks like in the midst of competition, it will transfer to all of life."

Jenny and I are excited to be part of the UTC staff team this summer! UTC creates an environment where God changes lives as athletes discover how to compete and live from a Biblical perspective.
