

Summer Bible study

Every Wednesday night, our living room is filled with college students eager to learn from the word of God. We go through a section of Philippians each week and discuss what it means to live with joy and contentment in Christ. Meaningful questions are asked, and we have vulnerable conversations about practical next steps.

Summer is a good time to mentor our current students and introduce new students to the AIA movement. We've had some new faces and are excited to expand our presence on campus in the fall. **Please pray that our time in the Bible will move them toward long-term life change.**

Even though it's July, the school year is coming up soon. We're taking time to prepare for the fall, and we value your prayers as we seek the Lord's guidance. Here are some specific prayer requests:

1. Wisdom for Matt as he leads our leadership team of staff, volunteers, and students.
2. Jenny's strength as she disciples Butler girls while also being the primary caregiver for our kids.
3. Growing favor in our relationships with coaches and administrators on each campus.
4. Faithfulness in our personal lives and our ministry efforts on campus.

Celebrating 10 years

We are celebrating our tenth wedding anniversary on July 12th. Time has flown by, and we have experienced God's grace and goodness. Several major life events have occurred, including moving to Indianapolis, adjusting to a city-wide ministry, buying and renovating our home, having three beautiful children, transitioning from Cru to AIA campus ministry, and relaunching ministry on three campuses after the pandemic. These are all gifts from the Lord we want to steward well. **Please pray for God's grace to sustain us for another ten years.** We are thankful for your ongoing partnership in building God's kingdom with us!
