Speaking of the world, these Madison-area grads are spending a year serving the Lord on campuses overseas with Cru!

Prayer Requests

1

For students coming back from summer mission trips and going to the world for year-long ministry, that they would be grounded in Christ & continue to grow into strong leaders!

2

For our staff & student leaders as we host outreaches and share who Jesus is with students who don't know Him personally, all year and particularly in September as students move in. Pray we would boldly share our faith with those around us.

Fishers Of Men

"Come, follow me," Jesus said, "and I will make you fishers of men." –Matthew 4:19

Turning Lost Students into Christ-Centered Laborers on Madison Area Campuses

September 1, 2012

From Madison to the World!

Summer was an exciting time for the students involved with Badger Cru! During our last weekly meeting in the spring we talked about being sent for Jesus this summer, no matter if students were going back home, staying in Madison, or going on a summer mission trip. We want students to be the light of Jesus wherever they are. This past summer we had over 30 students go on summer mission trips through Cru. There, Madison students met other students, shared the Gospel, and built spiritual movements in Ghana, East Asia, the Middle East, Uruguay, Ocean City, NJ and North Myrtle Beach, SC. These projects are "spiritual greenhouses" where students learn essential skills that will help them reach students back on campus in the fall and grow in their walks with God. Casey, a senior from our ministry, explains her Summer Project experience by saying, **"I connect better with the Lord in new and scary places because I have to depend on Him."** Summer Projects push our students out of their comfort zones and into full dependence on God. This is our goal as a ministry, for our students to be people fully dependent on the Lord in every area of their lives, for the rest of their lives. Thank you for your prayerful and financial support of Cru on the Madison area campuses! God is transforming students' lives and we are grateful for your partnership.

Madison-area students and a Cru intern with Uruguayan friends on a summer mission trip!
